Notes	<p>Training is one of the best tools needed to improve safety performance of workers. And one of the functions of an OSH Practitioners, Safety Engineer and Supervisors is to teach and develop the capabilities of workers.</p> <p>Our aim therefore is to develop these people and equip them the necessary knowledge and skills and become effective trainers.</p> <p>After this training, participants will be able to effectively assess training needs analysis and to design, conduct and evaluate appropriate safety training courses that will be beneficial to their organization.</p>
Methodology	Lecture, workshops and micro-teaching captured on video.
